

Retrophin to Present at the Leerink Partners 7th Annual Global Healthcare Conference

February 1, 2018

SAN DIEGO, Feb. 01, 2018 (GLOBE NEWSWIRE) -- Retrophin, Inc. (NASDAQ:RTRX) today announced that Stephen Aselage, chief executive officer, will present at the Leerink Partners 7th Annual Global Healthcare Conference in New York City on Thursday, February 15, 2018 at 9:00 a.m. ET.

A live webcast of the presentation will be available at ir.retrophin.com/events and an archived replay will be accessible for up to 30 days.

About Retrophin

Retrophin is a biopharmaceutical company specializing in identifying, developing and delivering life-changing therapies to people living with rare diseases. The Company's approach centers on its pipeline featuring late-stage assets targeting rare diseases with significant unmet medical needs, including fosmetpantotate for pantothenate kinase-associated neurodegeneration (PKAN), a life-threatening neurological disorder that typically begins in early childhood, and sparsentan for focal segmental glomerulosclerosis (FSGS) and IgA nephropathy (IgAN), disorders characterized by progressive scarring of the kidney often leading to end-stage renal disease and glomerulonephritis, respectively. Research in additional rare diseases is also underway, including a joint development arrangement evaluating the potential of CNSA-001 in phenylketonuria (PKU), a rare genetic metabolic condition that can lead to neurological and behavioral impairment. Retrophin's R&D efforts are supported by revenues from the Company's commercial products Chenodal[®], Cholbam[®] and Thiola[®].
